

COMPUTER BUILDER'S WORKSHOP

LEARN TO REBUILD A PC

Does your child enjoy taking things apart and rebuilding them? Has he or she always wondered what makes a computer work? Do you want your child to meet new friends and learn a valuable skill at the YMCA?

Featuring:

PLACE

Sign up for the Computer Builder's Workshop!

This 4-week course will feature step-by-step instruction from local computer experts from the PC Place. Instruction will teach children the hardware, software, and firmware fundamentals of a desktop computer. Groups of 4-6 will completely disassemble and reassemble a computer. Once reassembly is complete, we will test out our computers and focus on learning how to use Windows 7 & 10.

COMMUNITY IS WELCOME TO SIGN UP!

Date: Feb 1 - 22, 2017

Day: Wednesday

Time: 5:30-7:00pm
